

Dayaratnam Prestressed Concrete Structure

Buildings | Free Full-Text | A Low-Cost Prestress ...

The test structure is a 6.4 m simple supported RC beam prestressed by a seven-wire steel strand. The PS force was introduced into the beam using a stressing device and measured by a load cell. To prepare the piezoelectric-based smart strand, an EMI sensor was fabricated and attached to the naked strand; then the prepared strand was inserted ...

Feeling like a zombie - The Journal

Aug 18, 2021 · More than a year-and-a-half into the COVID-19 pandemic, burnout seems to be on everyone's lips. Many of us didn't realise what had hit us when we scrambled to adjust to the sudden upheaval of the workplace, switching to remote work with little or no preparation, or deemed an essential worker and asked to continue business-as-usual in highly unusual circumstances.

Reinforced concrete - Wikipedia

Concrete is a mixture of coarse (stone or brick chips) and fine (generally sand or crushed stone) aggregates with a paste of binder material (usually Portland cement) and water. When cement is mixed with a small amount of water, it hydrates to form microscopic opaque crystal lattices encapsulating and locking the aggregate into a rigid structure. The aggregates used for making concrete should ...
