Operations Management Processes And Supply Chains 10th

Miebach Consulting - the supply chain engineers

We develop concepts that define the integration of all relevant services. Upon these concepts our consultants and engineers plan, design and implement network structures, effective processes and sustainable installations. Companies dependent upon the seamless operation and successful performance of their supply chains need prospective solutions.

Summit 21 - Ellen MacArthur Foundation

And, PVH Chief Supply Chain Officer Bill McRaith, IKEA Global Supply Chain Operations Manager Susanne Waidzunas, and H&M Head of Supply Chain David Savman will discuss how global supply chains can be redesigned to facilitate growth that not only generates profit but creates more inclusive and equal societies while tackling environmental issues.

NAVEX Next 2021: Agenda | NAVEX Global

Mandatory trainings for compliance, harassment, security, and ethics are considered fundamentals for any organization. With environmental, social and governance concerns coming to the forefront, maintaining compliance and tracking evolving regulations is a challenge for compliance leaders.

Predictive big data analytics for supply chain demand

...

Jul 25, 2020 · Big data analytics (BDA) in supply chain management (SCM) is receiving a growing attention. This is due to the fact that BDA has a wide range of applications in SCM, including customer behavior analysis, trend analysis, and demand prediction. In this survey, we investigate the predictive BDA applications in supply chain demand forecasting to propose a classification of these applications ...

COVID-19 will forever change the foodservice ... - QSR Web

Apr 03, 2020 · Additionally, chains are closing poorer performing units that simply are no longer viable. We will see an industry contraction in total restaurant units and most likely in the value-chain that supports the industry, including distributors, brokers, service companies and suppliers.
